1. (Unclassified - DFM) Received a call from Mark Fu, IBM, requesting the status of a questionnaire he sent me on our handling of natural resources. IBM is under contract with the congressional Office of Technology Assessment to complete this study. I told Fu we had received the study and I had sent it out within the Agency for comments, but that I had nothing to report as yet.

5. (Internal Use Only - DFM) Received a call from [Redacted] DDS&T, regarding OSI's interest in meeting with the congressional Office of Technology Assessment, regarding solar energy research. In an earlier conversation we had agreed that OSI would contact OTA directly. Mr. Loomis informed me that OSI was currently working with OTA to establish a mutually convenient meeting time and place.

*Mr. Larson*

The Honorable William E. Colby  
Director, Central Intelligence  
Agency  
Washington, D. C. 20505

Dear Mr. Colby:

We understand that the Central Intelligence Agency has been or is currently involved in the analysis of international solar energy research and development. OTA is nearing the end of a study for several House and Senate Committees concerning the use of solar energy for the on-site generation of electricity and auxiliary heat. It may be helpful if your people in that field would care to hear what we are doing as we approach the end of our assessment, and it would be appreciated if we could get some ideas from you before finalizing our own effort.

Dr. Ronal W. Larson is in charge of our solar energy project and could be contacted directly if the suggested meeting should come about.

Sincerely,

*Emilio Q. Daddario*

22. [Redacted] (DFM) Received a call from Mark Fu, who works  
[Redacted] referencing a call of a couple months ago from  
Dr. Gary Thomas of the congressional Office of Technology Assessment.  
OTA has contracted with IBM for a study on information maintained and  
collected by Government agencies on raw materials, such as key minerals.  
IBM has developed a questionnaire which Fu asked if the Agency would complete.  
After checking with [Redacted] I told Fu to send the questionnaire to my  
attention, but did not promise our cooperation.
